

Ready to shine?

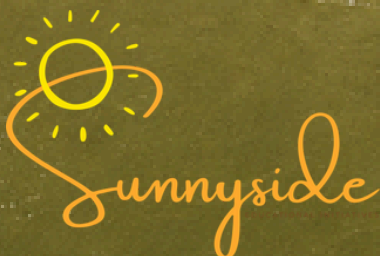

Every child has that spark.
Sometimes they just need learning
that's rooted in curiosity,
conversation and discovery.

LEAP Foundations

Parent Handbook

Learning Enrichment & Acceleration Program (LEAP)
is an after school initiative by Sunnyside.

WHAT IS LEAP FOUNDATIONS?

LEAP — Learning Enrichment & Acceleration Programme is

Sunnyside's after-school programme designed to strengthen how children learn, think and engage with the world around them.

LEAP Foundations, for children aged 5–10, focuses on building the core foundations needed for strong, independent learning.

Many children appear to be progressing well in school while still having gaps in essential learning skills or developing only a surface-level understanding of what they study. Even capable and hardworking children can begin to depend heavily on memorisation and repetition instead of understanding, reasoning and application.

The goal is to strengthen how children understand, think, reason and express themselves, so that future learning rests on a strong foundation.

WHAT WILL CHILDREN WORK ON?

Language & Communication

Phonics · Reading · Comprehension · Vocabulary · Speaking & Listening · Writing & Expression

Children strengthen the skills needed to read with understanding, communicate clearly and express their thoughts with growing confidence.

Mathematical Thinking

Number Sense · Arithmetic · Mental Maths · Patterns · Logic · Reasoning · Problem-Solving

Children build a stronger understanding of numbers and mathematical relationships, moving beyond simply remembering steps and procedures.

Scientific Thinking & Inquiry

Observation · Questioning · Predictions · Simple Experiments · Nature Exploration · Making & Designing

Children learn to observe closely, ask questions, investigate ideas and make sense of the world through hands-on experiences.

Habits of Success

Focus · Independence · Organisation · Persistence · Collaboration · Reflection

Children develop the everyday habits that help them take greater ownership of their learning and work more independently.

The exact learning journey will be curated around the children in each group rather than delivered through a fixed syllabus.

WHO IS LEAP FOUNDATIONS FOR?

LEAP Foundations will be a good fit for children who:

- would benefit from stronger learning foundations
- tend to memorise or follow steps without fully understanding
- need greater confidence and independence in learning
- are ready for deeper thinking, exploration and challenge

What LEAP is not

LEAP is not tuition. It does not repeat the school syllabus, complete homework or focus primarily on exam preparation.

Instead, LEAP works on the foundations underneath learning — helping children become stronger readers, thinkers, problem-solvers and independent learners.

PROGRAMME DETAILS

Age Group

5–10 years

Programme Fee

- Ages 5–7: ₹5,000/month
- Ages 8–10: ₹7,000/month

Start Date

2 September 2026

Limited Intake

LEAP Foundations will begin with a small cohort of 15 kids.

Schedule

Monday, Wednesday & Friday

INTERESTED IN LEAP FOUNDATIONS?

We would first like to understand your child and what you are looking for.

1. Register your interest

Complete the enquiry form with a few details about your child.

2. Parent conversation & Child interaction

We will schedule a conversation to understand your child, answer your questions and tell you more about LEAP Foundations.

3. Enrolment

If LEAP Foundations feels like the right fit, we will guide you through confirmation and enrolment.
