

Ready to shine?

Every child has that spark.
Sometimes they just need learning
that's rooted in curiosity,
conversation and discovery.

LEAP

Language Foundations

Parent Handbook

Learning Enrichment & Acceleration Program (LEAP)
is an after school initiative by Sunnyside.

WHAT IS LEAP LANGUAGE FOUNDATIONS?

LEAP – Learning Enrichment & Acceleration Programme is Sunnyside's after-school programme designed to strengthen how children learn, think and engage with the world around them.

Some children struggle to read independently. Some can read the words but do not fully understand what they are reading. Others find writing, spelling or expressing their thoughts in English difficult.

When language foundations are weak, the impact goes beyond English. Understanding instructions, following lessons, communicating ideas and learning meaningfully across subjects can all become harder.

LEAP Language Foundations is a focused **English language programme** for children 4 yrs & above, that works on these gaps – strengthening reading, comprehension, writing, vocabulary, speaking and listening, based on what each learner needs.

Not every learner will work on all the language areas or begin at the same point. The learning journey will be scaffolded around what each child currently needs to strengthen.

WHAT WILL CHILDREN WORK ON?

Listening & Oral Language

Understanding spoken language, listening with attention, building vocabulary and expressing thoughts more clearly.

Phonics & Decoding

Strengthening sound awareness, letter-sound relationships, blending, decoding and the foundations needed for independent reading.

Reading & Comprehension

Building reading fluency and understanding, interpreting and responding to what is being read.

Spelling & Writing

Developing spelling, sentence construction and the ability to communicate ideas through increasingly independent writing.

Vocabulary & Language Use

Building a richer vocabulary and using language with greater understanding and confidence.

Speaking & Communication

Expressing ideas, having conversations, asking and responding to questions and communicating more confidently.

WHO IS LEAP LANGUAGE FOUNDATIONS FOR?

LEAP Language Foundations may be a good fit if you:

- want your child to build strong language foundations from an early age
- want a child who is already doing well to develop richer vocabulary, stronger comprehension, writing and expression
- notice that your child struggles with reading, comprehension, writing, spelling or expressing ideas clearly
- feel that gaps in language are beginning to affect confidence or learning across other subjects
- would like your child to have more regular and meaningful engagement with reading, writing and communication

What LEAP Language Foundations is not

This is not English tuition, homework support or exam preparation. The focus is on strengthening the language foundations underneath learning, so children can gradually read, understand, communicate and express themselves with greater independence.

PROGRAMME DETAILS

Age Group

4 yrs & above

Programme Fee

₹5,000/month

Start Date

2 September 2026

Limited Intake

LEAP Language Foundations will begin with a small cohort of 5-8 kids.
